## more stalled projects coming up?

Posted by Andrew Page - 2008/08/25 22:48

---

with construction prices rising, does this mean developers that fixed their prices a year or more ago might be in trouble?

anyone know of any recently stalled projects?

some small developer will be in trouble. if they're building costs go up and they have already sold property or can't sell as less demand then possibility exists.
